

July 20, 2021

As writers of film and television and members of the Writers Guild of America, East and Writers Guild of America West, we understand the critical importance of a union contract. We are proud to stand in support of the editorial staff at MSNBC who have chosen to organize with the Writers Guild of America, East. We welcome you to the Guild and the labor movement. **We encourage everyone to vote YES in the upcoming election so you can get to the bargaining table to have a say in your future.**

We work in scripted television and film, including many projects produced by NBC Universal. Through our union membership we have been able to negotiate fair compensation, excellent benefits, and basic fairness at work—all of which are enshrined in our union contract. We are ready to support you in your effort to do the same. We're all in this together.

Vote Union YES!
